
A4 Size Mini New Starter Heat Press Machine CH1816

this machine is designed for heat transfer artwork onto flat item,t shirt mouse pad tiles.

A heat press is a machine engineered to imprint a design or graphic on a substrate, such as a t-shirt, with the application of heat and pressure for a preset period of time. While heat presses are often used to apply designs to fabrics, specially designed presses can also be used to imprint designs on mugs, plates, jigsaw puzzles, caps, and other products.
